## ABOUT

- Engineer by Education, Web Developer by choice. Enthusiast about problem solving and a dream of changing present boring education system to a creative level. Currently learning DSA and MERN stack.

## PROJECT

### Web Development

#### JobSpace

📅 November, 2020

- For Recruiter : Platform to post job vacancies, check developers' portfolio and priority score, can take their tests/quizzes, can mail them test link with instructions.
- For Developers : Can apply to jobs, check their statistics, have developer's chatroom, editable portfolio, can subscribe to companies.
- Both users can be verified using OTP to their mail and have notification section.
- TechStack : Nodejs, Expressjs, MongoDB, Bootstrap, Ajax, JQuery
- Hosted at : <https://jobspace-webster2k20.herokuapp.com/>
- Github : <https://github.com/abhishek0777/JobSpace>

### Web Development

#### Portfolio

📅 July, 2020

- Designed my own portfolio which includes my introduction, about my interest, skills shown using clean bars.
- Developed an full fledged working implementation of HTML, CSS, JS, Bootstrap, jquery, animate.js and some other front-end libraries.
- Hosted on github pages: <http://abhishek0777.github.io/>
